Zoom for Higher Education

Modern learning for the modern student

Zoom Video Communications helps you build today's collaboration classrooms

Enrich teaching & learning

Expand traditional classrooms with video communications to meet the growing needs of modern learners.

Maximize your resources

Utilize resources and hardware you already have; expand your capabilities and community offerings

Improve learning outcomes

Increase student participation and learning retention with virtual and hybrid classrooms and micro-learning.

- + HD video and audio provide exceptional clarity and quality to virtual and hybrid classes.
- + Students can join classes virtually, from any device, boosting attendance and retention.
- + Session recording and automatic transcription allow students to learn at their own pace.
- + Simple user management and single sign-on make video a seamless component of the learning experience.

"It's not platform dependent, there aren't the delays of making sure the audio functions properly. Zoom just works off the bat. It has transformed my program."

John Bansavich, ED.D

Zoom Chat

Connect your teams in one place

zoom

Streamlined workspace collaboration for your team

Included with your Zoom license is Zoom Chat, helping your teams stay connected

Simplify your workflow

Make collaboration easier between teams and external participants with enterprise chat and instant meetings.

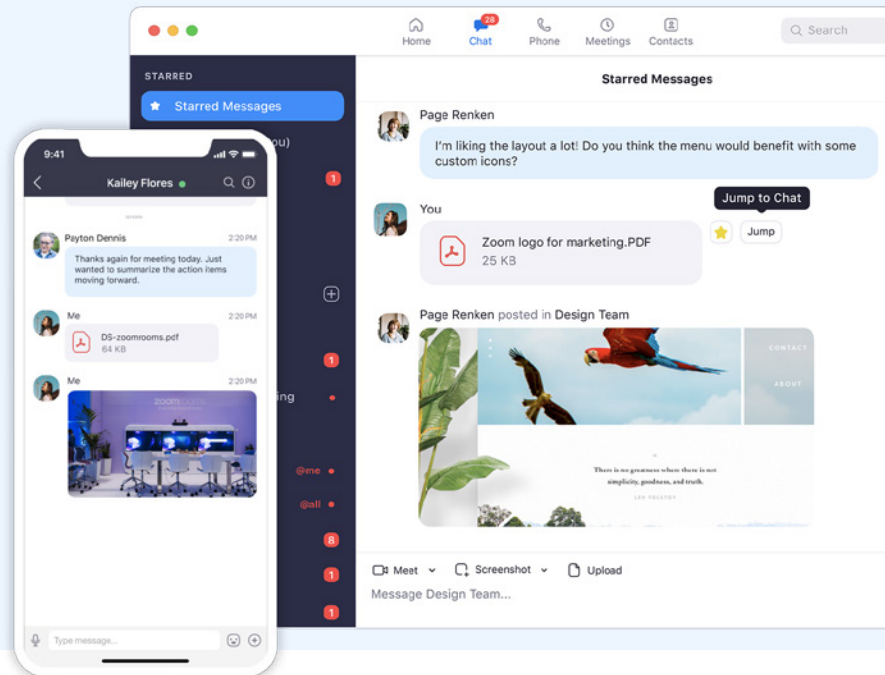

Power modern communication

Create a virtual workspace where all the right people for every project are ready to collaborate.

Organize your chaos

Save time by quickly finding messages, content, and links related to your channels and projects.

- + Start an instant video meeting with any direct message or group channel
- + Communicate in public or private channels organized by projects, teams, or topics
- + Search everything, from contacts, to groups, messages, and files
- + Sync status with calendar integrations and presence to show if someone is busy, in a meeting, on mobile, desktop, or offline

Tailor to your workflow

Personalize your chat and customize it for your needs, from the UI color scheme and display settings, to your favorite groups and contacts.

Share important content

Share relevant files, link to websites, react with emojis, and illustrate your point with annotated screenshots or GIFs.

Keep your data and contacts secure

At Zoom, we continue to exceed privacy and data protection expectation so your data stays safe and secure. Zoom participates in and has certified its compliance with the EU-U.S. Privacy Shield Framework as well as the following measures:

- SOC 2 compliant
- TRUSTe certified
- HIPAA, PIPEDA & PHIPA compliant
- SSO via industry standard authentication protocols
- Support for multi-factor authentication
- Encryption of data in transit and at rest
- Archiving for up to 10 years plus integration with Smarsh and Global Relay

Keep everything synced between devices

Keep your conversations and content synced and easily searchable across your devices so you can seamlessly transition throughout your day.

Enable third-party integrations

Zoom Chat works with the tools that make up your daily workflows, so you can always access the information and resources you need.

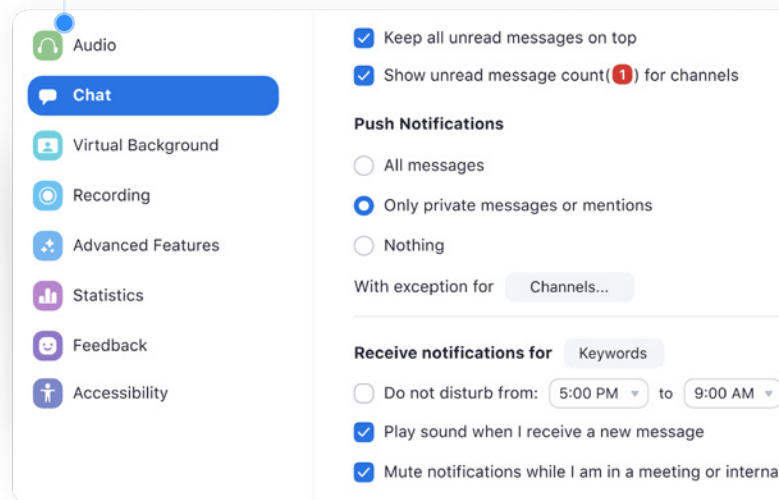

Organize projects and conversations

Starred contacts and private channels help you create a workspace to organize tasks, prioritize projects, and sift through the noise.

Work and respond smarter

Customize notification settings for channels, keywords, and groups and mark messages as unread, or start a message, to return to later.

Streamline communication, collaboration, and creativity.
